# 01

## SMS Notifications

Keep your workforce up to date and informed with instant communications sent directly to your team's handheld devices.

# 02

## Micro Engagements

Engage your users quickly and simply by displaying historical or archived information they may not have seen.

# 03

## Tool-first Workflows

Supply your team members with the tools and applications that they need to avoid software bloat and overwhelm with one-size-fits-all solutions.

# 04

## Integrations

Enrich your experience with Media embedding, Microsoft and Google authentication support, Sharepoint and Docs.

# 05

## Compliance

Champion process and accountability throughout your workforce with validated policies, global announcements and e-learning applications.

Discover how an intranet can revitalise your organisation's workflows, communications and processes.
